# **Independent Auditors' Report**

To the Board of County Commissioners Logan County Sterling, Colorado

# Report on the Audit of Financial Statements

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Logan County (the County) as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the County as of December 31, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design
  audit procedures that are appropriate in the circumstances, but not for the purpose of
  expressing an opinion on the effectiveness of the County's internal control. Accordingly,
  no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The other supplementary information, the local highway finance report and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information, the local highway finance report and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 24, 2024, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

# LOGAN COUNTY, COLORADO

# MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management's Discussion and Analysis for Logan County offers readers a narrative overview and analysis of the County's financial activities for the fiscal year ended December 31, 2023. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in the financial statements and notes to the financial statements.

#### FINANCIAL HIGHLIGHTS

- The assets of the County exceeded its liabilities at the close of 2023 by \$90,491,918. Of this amount, \$27,273,140 is available to meet the County's ongoing obligations to its citizens and creditors.
- The County's total net position increased by \$11,106,097 for the current year.
- As of December 31, 2023, the County's governmental funds reported combined ending fund balances of \$36,056,718, an increase of \$3,115,162 in comparison with the prior year.
- Unassigned fund balance for the General Fund was \$12,794,854 December 31, 2023.
- ➤ The Logan County mill levy for general operating purposes is 29.868 mills.

# **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to Logan County's Basic Financial Statements. The Basic Financial Statements contain three components: government-wide financial statements, fund financial statements, and notes to the financial statements. In addition, this report contains other Required Supplementary Information, a Supplementary Information section that presents combining statements for non-major governmental funds (along with actual and budget comparison schedules).

The basic financial statements include two kinds of statements that present different views of the County:

- > The first two statements are government-wide financial statements that provide both long-term and short-term information about the County's overall financial status.
- > The remaining statements are fund financial statements that focus on individual parts of the County government, reporting the County's operations in more detail than the government-wide statements.
  - O Governmental Fund statements tell how general government services like judicial, public safety, health and welfare, auxiliary services, culture and recreation and public works were financed in the short-term as well as what remains for future spending.
  - The Fiduciary Fund statement provides information about Custodial Fund assets held by the County which is acting solely as a trustee of agent for the benefit of others, to whom the resources belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. In addition to these required components, a section is included with combining and individual fund statements that provide further detail about our non-major governmental funds described as special revenue funds, each of which are added together and presented in single columns in each of the basic financial statements.

#### **GOVERNMENT-WIDE STATEMENTS**

The government-wide statements report information about the County as a whole using accounting methods similar to those used by private-sector companies.

The statement of net position includes all of Logan County's assets and liabilities with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Logan County is improving or deteriorating.

The statement of activities presents information showing how Logan County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses reported in this statement for some items will result in cash flows in future fiscal periods.

The government-wide financial statements of the County include the following:

➤ Governmental activities: Most of the County's basic services are included here, such as general government, judicial, public safety, health and welfare, auxiliary services, culture and recreation and public works. Property taxes, sales and use tax and State and Federal grants finance most of these activities.

#### **FUND FINANCIAL STATEMENTS**

The fund financial statements provide more detailed information about the County's most significant funds, not the County as a whole. Funds are accounting devices that the County uses to keep track of specific sources of funding and spending for particular purposes.

- > Some funds are required by state law and by bond covenants.
- The County Board of Commissioners establishes other funds to control and manage resources for particular purposes (i.e. Lodging Tax Fund, TV Translator Fund, Conservation Trust Fund, Ambulance Fund) or show that certain taxes and grants are used appropriately (i.e. Special Revenue Funds).

The County has two kinds of funds:

- Sovernmental funds: Most of the County's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided on the subsequent page of the governmental funds statement that explains the relationship (or differences) between the two types of statements. Logan County adopts an annual appropriated budget for all funds. A budgetary comparison statement has been provided for all funds to demonstrate compliance with this budget.
- Fiduciary funds: The County is the trustee, or fiduciary, for the Treasurer's Fund. The Treasurer, by statute, collects and distributes all property tax revenues to other County funds and local governments. The County is responsible for ensuring that the assets reported in this fund are used for their intended purpose. All of the County's fiduciary activities are reported in a separate statement of fiduciary net position. These balances are excluded from the County's government-wide financial statements because the County cannot use these assets to finance its operations.

Notes to the financial statements -

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements start on page 28 of this report.

# FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE

Net position. As discussed earlier, net position may serve as a useful indicator of a government's financial position. As of December 31, 2023, the County's net position was \$90,491,918.

Total net position for the County increased \$11,106,097.

TABLE 1

housands)		Governmental Activities		
		2023		2022
Current assets	\$	46,235	\$	49,172

Total net position Total liabilities, deferred inflows of		90,492		79,38
resources and net position	\$	105,253	\$	100,31

Description of net position is as follows:

0	Net investment in capital assets	\$57,200,137
0	Restricted for emergencies	\$ 865,400
0	Restricted for public safety (E911)	\$ 986,896
0	Restricted for culture and recreation (Consv Trust Fund)	\$ 271,200
0	Restricted for capital outlay & operations (Sales & Use Tax Fund)	\$ 3,895,145
0	Unrestricted	\$ 27,273,140

Other restricted net position represents resources that are subject to external restrictions on how they may be used. Included in this category are unspent proceeds for TABOR emergency funds of \$865,400.

Investment in capital assets (land, buildings and equipment) is 65% of Logan County's net position. Logan County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

In addition, a portion of Logan County's net position (6.65%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$27,273,140) is available to meet the government's ongoing obligations to citizens and creditors.

At the end of 2023, Logan County is able to report positive balances in all three categories of net position.

# Changes in net position

The County's total revenue of \$40,733,907 was more than program expenses of \$29,627,810 for an increase in net position of \$11,106,097.

#### FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

Governmental funds Overview. Logan County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. As described earlier, the County's governmental funds provide information on short-term inflows and outflows, as well as what remains for future spending. Such information is useful in assessing the County's financing requirements. For example, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of 2023, Logan County reported a combined fund balance of \$36,056,718. This amount is \$3,115,162 more than 2022. Of the total combined fund balance, approximately \$12,794,854 consists of unassigned fund balance, which is the portion of fund balance that serves as a measure of current available financial resources.

The restricted fund balance represents resources not available for spending or those on which legal restrictions have been placed. The County's restricted fund balance makes up \$6,018,641 of the combined total and includes the following:

$\triangleright$	Restricted for emergencies	\$ 865,400
	Restricted for public safety	\$ 986,896
	Restricted for culture and recreation	\$ 271,200
	Restricted for capital outlay & operations	\$ 3,895,145

General Fund. This is the primary operating fund of Logan County Government. It accounts for many of the County's core services such as law enforcement, Assessor, Clerk & Recorder, Treasurer, and Planning & Zoning. As the county's major operating fund, the General Fund accounts for ordinary operating expenditures financed primarily by property taxes, sales and use tax, grants and charges for services. The General Fund completed 2023 with a fund balance of \$14,041,330, which is an increase of \$2,055,700 from the previous year's fund balance of \$11,985,630 which indicates revenues are meeting the needs of operating expenses.

Road & Bridge Fund. The Road and Bridge Fund is mandated by state statutes. This fund accounts for costs related to County road and bridge construction and maintenance. Revenue is generated from property taxes, sales and use taxes, highway user's tax, grants and other services for fees. Road & Bridge ended 2023 with a fund balance of \$9,324,539, which is an increase of \$651,537 from the prior year fund balance of \$8,673,002. This increase is mainly due to delaying construction of a new bridge and road surfacing projects until 2024. A federal grant has been obtained to offset bridge costs.

<u>Department of Human Services Fund.</u> This fund is also mandated by state statutes. It accounts for monies received from property taxes and State and Federal grants expended for the local share of many Federal and State public welfare programs. The Department of Human Services ending fund balance in 2023 is \$1,262,072, which is a decrease of \$49,429 from the prior year of \$1,311,501.

#### **BUDGETARY HIGHLIGHTS**

Over the course of the year, the Board of County Commissioners revised the County's budget once due to receipt of unanticipated revenue for the following:

#### Sheriff Department

- Police Officer Safety Training, DUI enforcement, and overtime reimbursement \$25,134
- VALE Scholarship \$1,111

# Clerk & Recorder

• ERTB Grant Fraud Guard SB 22-153 Election Security \$29,449

#### Office of Emergency Manager

• Division of Homeland Security Grant \$7,816

#### Fair Fund

• Night Show and Fair Expenses/Increased Ticket sales \$56,712

When necessary, reasons for amending the budget are:

- Supplemental appropriations to increase revenue and expenditure accounts due to the receipt of unanticipated revenue.
- Unanticipated expenses from fund balance.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

**Capital Assets.** Logan County's investment in capital assets for its governmental activities as of December 31, 2023, is \$59,018,144 (net of accumulated depreciation). This amount includes a broad range of capital assets, including land, buildings, equipment, improvements and other infrastructure.

Logan County remains committed to the upkeep and maintenance of the County's largest assets. More detailed information about the County's capital assets is presented in table 3 and in Note D to the financial statements.

TABLE 3

Capital assets, net of depreciation (in thousands)					
	Government Activities				
			2023		2022
Land		\$	1,133	\$	1,133

#### SIGNIFICANT ISSUES

Long-term debt (in thousands)

In November 2018, voters approved to extend until 2025 the .5% sales and use tax that was originally approved in 2000 to construct a new Justice Center facility that included County and District courts, District Attorney Offices, Probation Offices, Sheriff and Jail departments as the obligation was paid in full. The extension of the tax is to be used solely for the purpose of constructing; repairing; equipping; operating; maintaining; improving or remodeling the Logan County Justice Center; Courthouse and Annex; Fairgrounds stadium and event structures; Central Services Building; Landfill structures; Heritage Center; and Road & Bridge shop facilities. Ballot issue 1E passed with 4,732 for and 3,523 against.

Major projects have been accomplished with these funds such as upgrading the HVAC systems at the Justice Center, Courthouse, Annex, and Heritage Center which provides greater efficiency with clean air ventilation and controlled heating and air conditioning. This project spanned over two years to complete and included the use of ARPA monies for a total cost of approximately \$7M. This sales tax also funds the Justice Center utilities (\$250,000/year); Justice Center general repairs and maintenance (\$324,000); beginning construction on the new Community Center (\$509,840); improved lighting in eligible buildings (\$242,785) and other miscellaneous projects for over \$4M in total 2023 costs. These projects would have been difficult if not impossible to accomplish without this source of funding.

In December 2023, the Logan County Water Conservancy District decided to dissolve their district and transfer its fund balance of \$4,838,560 to Logan County for the purpose of maintaining the existing weather and flow monitoring system. The Board of County Commissioners determined to refund 11.992 mills via a temporary tax credit to county tax payors in 2024 amounting to \$4,450,084. The remaining amount will be set aside and dedicated to future maintenance needs for the system.

# LONG-TERM FINANCIAL PLANNING

A major challenge for the County is the ongoing maintenance of facilities, services to the citizens of Logan County and employee benefits.

The development of the Sales & Use Tax Capital Improvement fund allows for major renovations and repairs to the Justice Center, Heritage Center, Central Services Building, Landfill structures, Road & Bridge, Fairgrounds and Courthouse as well as pays the utilities at the Justice Center. The tax supporting these expenses will sunset in 2025 and will require a ballot issue for voter approval to extend. The benefit of a sales tax is that everyone who passes through Logan County will contribute. If it fails, these expenses will be funded with property taxes from General Fund.

Another concern in 2023 was the skyrocketing assessed values placed on tax payors property. This made for ballot issue "Colorado Proposition HH" which a yes vote would mean reducing property tax rates in exchange for the TABOR refunds residents would normally receive from the state. This measure failed, and in the aftermath Colorado Governor Jared Polis called a special session of the Colorado State Legislature to address property tax relief. The legislature passed and the governor signed legislation to reduce the residential property tax assessment rate from 6.765% to 6.7% and increased the amount of home value that is exempt from taxation from \$15,000 to \$55,000. It also allowed for providing funds to local governments to make up for decreased property tax revenues (backfilling) in 2024. Additional measures are being introduced in 2024 to again limit property tax received which causes new concerns for long term planning and the ability to meet the needs of its citizens.

Logan County is already subject to the Statutory Property Tax Revenue 5.5% limitation 29-1-301 C.R.S or it's mill levy, whichever is the most restrictive, and would not have experienced most of the issues mentioned in the above paragraph.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Logan County continues to remain fiscally responsible with a Standard and Poor Rating of A+. In preparing the 2024 budget, the County's net assessed value increased .55% from 369,061,070 to 371,087,739. Logan County's mill levy of 29.868 mills is more restrictive than the State's 5.5% Property Tax Revenue limit (CRS 29-1-301). Refunds and abatements allowed an additional .066 mills. A temporary tax credit of 11.992 was allowed due to the Logan County Water Conservancy District dissolution, for an adopted 2024 mill levy of 17.942 mills and appropriated property tax net revenue of \$6,658,057.

The adopted 2024 appropriated expenditures increased \$9,691,166 from 2023 appropriations due to deferring a large bridge construction and road surfacing projects until 2024; increased equipment costs; completing the HVAC upgrades to facilities; completion of the new Community center, and increased personnel and operating costs.

County sales and use tax received in 2023 was \$4,857,960 which is a decrease of 6.2% from 2022 (\$5,175,817). This decrease reflects a nationwide trend due to the state of the economy and rising costs.

#### **NOTES OF INTEREST**

In 2019 the County and the City of Sterling entered into an Intergovernmental Agreement concerning the provision of cemetery and parks services at Sunset Memorial Gardens. Under the terms of the agreement the City provides services incident to operating and managing a public cemetery and the County provides those services incident to operating and managing a public park to include mowing services and beautification of the area by planting flowers, trees, shrubs and installing a walking path around the gardens. Plans to construct a shade structure are in the future but have been put on hold due to the escalating costs. The city constructed a columbarium in 2020 which the cost was shared 50/50 between the City and County.

In 2023, the Logan County Ambulance Service was in operation for eleven years. An Intergovernmental Agreement between Logan County and the City of Sterling was adopted in 2012 with the City of Sterling providing EMT staff and managing the ambulance service with Logan County providing funding through user fees and grants. The beginning fund balance in 2023 was \$68,752 ending with \$64,961. This decrease is due to escalating operating expenses while revenue continues to trend downward. Resolution 2022-44 was adopted increasing fees effective 01/01/2023 yet revenue is still not quite meeting the needs causing the fund balance to slowly diminish. Much discussion has been given to the future of the ambulance and what needs to be done for it to be self-sufficient. General Fund continues to reserve \$250,000 in anticipation of covering expenses in 2024.

Logan County received a generous donation of \$500,000 late 2021 for the construction of a new addition to the Exhibit Center at the fairgrounds or improvements to the facility such as but not limited to HVAC or dance floor. After considerable discussion, the Board of County Commissioners determined the best use of the monies was to build a new community center to meet the needs of the citizens. Plans were developed to include a large addition to the existing Exhibit Center with new restrooms and industrial kitchen. Request for bids were made available with the award given to Buildings by Design, Brush, Colorado for approximately \$2.9M. Sales and Use Tax Capital Improvement Fund is covering the difference above the donation. Construction began late 2023 to be completed by the summer of 2024.

# CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the County's finances and to demonstrate the County's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Department, 315 Main, Sterling, Colorado, 80751, or by telephone at (970) 522-0880.

# **Basic Financial Statements**

The basic financial statements of the County include the following:

Government-wide financial statements. The government-wide statements display information about the reporting government as a whole, except for its fiduciary activities.

Fund financial statements. The fund financial statements display information about major funds individually and nonmajor funds in the aggregate for governmental funds.

*Notes to the financial statements.* The notes communicate information essential for fair presentation of the financial statements that is not displayed on the face of the financial statements. As such, the notes are an integral part of the basic financial statements.

# LOGAN COUNTY, COLORADO

# Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position December $31,\,2023$

Amounts reported for governmental activities in the statement of net position are different because:	
Total fund balance - governmental funds	\$ 36,056,718
Certain receivables will be collected in the next fiscal year, but are not available soon enough to pay for the current period's expenditures, and therefore are unearned revenues in the governmental funds.	81,216
Capital and other assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.	59,018,144
Long-term liabilities are not due and payable in the current period and therefore are not reported as liabilities in the funds.	(4,664,160)
Net position of the governmental activities	\$ 90,491,918

The accompanying notes are an integral part of these financial statements.

# LOGAN COUNTY, COLORADO

# Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2023

Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balances - governmental funds	\$ 3,115,162
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities, those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. This is the amount by which capital outlays exceeded deprecation in the current period.	8,077,115
In the statement of activities, the net loss on the disposal of capital assets is reported, whereas in the governmental funds, the proceeds from the disposal increases financial resources. Thus, the change in net position differs from the change in fund balance by the net book value of the capital assets disposed of.	(203,146)
In the statement of activities, certain operating expenses - compensated absences and landfill closure and postclosure care costs - are measured by the amounts incurred or earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid).	(147,133)
Because some revenues will not be collected for several months after the fiscal year ends, they are not considered "available" revenues in the governmental funds. They are, however, recorded as revenues in the statement of activities.	(18,915)
Lease proceeds are reported as revenue in the governmental funds, however, they are reported as a long-term liability in the statement of net position.	(25,137)
Payments related to the lease liabilities are reported as expenditures in the governmental funds, however, these payments reduce long-term liabilities in the statement of net position and do not result in an expense in the statement of activities.	308,151
Change in net position of governmental activities	\$ 11,106,097

#### Note A - Summary of significant accounting policies

This summary of Logan County's significant accounting policies is presented to assist the reader in interpreting the financial statements and other data in this report. The policies are considered essential and should be read in conjunction with the accompanying financial statements.

The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The more significant of the County's accounting policies are described below.

### A.1 - Reporting entity

The financial reporting entity consists of (1) the primary government, (2) organizations for which the primary government is financially accountable and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The reporting entity's financial statements should present the funds of the primary government (including its blended component units, which are, in substance, part of the primary government) and provide an overview of the discretely presented component units. Blended component units, although legally separate entities, are, in substance, part of the County's operations. Discretely presented component units, if any, are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the County.

The County has examined other entities that could be included as defined in number 2 and 3 above. Based on these criteria, the Logan County Pest Control District and the E 911 Authority are included in the County's basic financial statements using blended presentation.

#### Blended component units

<u>Logan County Pest Control District</u> – A separate legal entity according to Colorado State Statutes, is included in the County's basic financial statements as a special revenue fund. The District is not governed by a separately elected governing body other than the Board of County Commissioners. There are no separately issued financial statements.

<u>E 911 Authority</u> – A separate legal entity included in the County's basic financial statements as a special revenue fund. The Board of County Commissioners appoints the governing board of the Authority. There are no separately issued financial statements.

# Note A - Summary of significant accounting policies (continued)

#### A.2 - Fund accounting

The County uses funds to report its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types." The County does not have any proprietary funds.

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked funds (special revenue funds), major capital projects (capital projects fund), and the servicing of general long-term debt (debt service fund). The following are the County's major governmental funds:

<u>General Fund</u> – The General Fund is the operating fund of the County. It is used to account for most of the day-to-day operations of the County which are financed from sales and use taxes, property taxes and other general revenues. Activities financed by the general fund include those of line and staff departments within the County, except for activities of the enterprise funds.

<u>Road and Bridge Fund</u> – This fund records costs related to county road and bridge construction and maintenance. By state law, Colorado counties are required to maintain a Road and Bridge Fund and a portion of road and bridge taxes is allocated to cities and towns for use in their road and street activities.

<u>Human Services Fund</u> – This fund administers human services programs under state and federal regulations. Programs include, but are not limited to, Medicaid, food stamps, foster care programs, senior service programs, job training services, and Temporary Assistance to Needy Families (TANF). Colorado counties are required by law to maintain a Human Services Fund.

<u>Capital Expenditures Fund</u> – This fund is used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds. This fund is financed through a combination of property taxes and state grants.

<u>Sales and Use Tax Capital Improvement Fund</u> – This fund is used to account for constructing, repairing, equipping, operating, maintaining, improving or remodeling the Logan County Justice Center, Courthouse and Annex, Fairgrounds Stadium and event structures, Central Services Building, Landfill structures, Heritage Center, and Road & Bridge shop facilities.

# Note A - Summary of significant accounting policies (continued)

<u>Solid Waste Disposal Fund</u> – This fund is used to account for the operation of the County's landfill. Property tax and disposal fees are the main source of revenue to operate.

Fiduciary funds focus on net position and changes in net position. The fiduciary fund category is split into four classifications: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds and custodial funds. Trust funds are used to account for assets held by the County under a trust agreement for individuals, private organizations or other governments and are therefore not available to support the County's own programs. The County has one fiduciary fund.

# Note A.3 – Basis of presentation

<u>Government-wide financial statements</u> – The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government except for fiduciary funds.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliations with a brief explanation to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the County's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the County.

<u>Fund financial statements</u> – Fund financial statements report detailed information about the County. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

# Note A - Summary of significant accounting policies (continued)

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources management focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets, deferred outflows of resources, current liabilities and deferred inflows of resources, and a statement of revenues, expenditures and changes in fund balance, which reports the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources.

Fiduciary funds focus on net position and changes in net position and are reported using accounting principles similar to proprietary funds. The County's fiduciary funds are presented in the fiduciary fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address the activities or obligations of the County, these funds are not incorporated into the government-wide financial statements.

### A.4 - Basis of accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting.

Revenues – exchange and nonexchange transactions – Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the County, available means expected to be received within sixty days of fiscal year-end, except for state and federal grant revenues, which are considered available if collection is expected within six months of year end.

Nonexchange transactions, in which the County receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenues from property taxes are recognized in the fiscal year for which the taxes are levied. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

# Note A - Summary of significant accounting policies (continued)

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes collected within sixty days after year-end, interest, certain charges for services and certain grants.

<u>Unearned revenue</u> – Unearned revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues also arise when resources are received by the County before it has a legal claim to them, as when grant monies are received prior to meeting eligibility requirements. In subsequent periods, when both revenue recognition criteria are met, or when the County has a legal claim to the resources, the liability for unearned revenue is removed and the revenue is recognized.

<u>Deferred outflows/inflows of resources</u> - In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Expenses/expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

#### A.5 - Budgets and budgetary accounting

Annual budgets are established for all funds of the County. Budgets for all funds are adopted on a basis consistent with generally accepted accounting principles.

An appropriated budget for the entity as a whole is prepared on a detailed basis. Revenues are budgeted by source. Expenditures are budgeted by department and the major divisions thereof and by each independent office and agency and by the principal objects of expenditure. The legal level of control is considered to be at the individual fund level and expenditures may not exceed appropriations at this level. All budget revisions at this level are subject to final review and approval by the Board of County Commissioners. Within these control levels, management may transfer appropriations without the Board of County Commissioners approval.

# Note A - Summary of significant accounting policies (continued)

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

- Prior to October 15th, the finance office submits to the Board of County Commissioners a proposed operating budget for the fiscal year commencing the following January 1st for all funds, except custodial funds.
- The budget is prepared using the modified accrual basis of accounting.
- Public hearings are conducted to obtain taxpayer comments.
- Prior to December 31<sup>st</sup>, the budget is legally adopted through passage of adoption and appropriation resolutions.

#### A.6 - Encumbrances

Encumbrance accounting is utilized by the County to record purchase orders, contracts and other commitments for the expenditure of monies to assure effective budgetary control and accountability. Encumbrances outstanding at year-end are canceled and reappropriated in the ensuing year's budget.

#### A.7 - Cash and cash investments

The Logan County Treasurer maintains a cash and investment pool that is available for use by all County funds. Each funds' portion of this pools is displayed as "cash and cash investments".

### A.8 - Short-term interfund receivables/payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as internal balances on the government-wide statement of net position, and are classified as due from other funds or due to other funds on the balance sheet.

#### A.9 - Receivables

The County has elected the reserve method of accounting for uncollectible accounts receivable. Amounts included in the reserve are based on accounting policies established by the Colorado Department of Human Services. All payments in arrears of social service accounts receivable are included in the allowance for doubtful accounts.

#### Note A - Summary of significant accounting policies (continued)

## A.10 - Inventories and prepaid items

Inventories in the Road and Bridge Fund consist of construction and maintenance supplies and are recorded at the lower of cost or market value using the first-in, first-out method. Inventories in this fund are offset by a fund balance reserve which indicates that it does not constitute "available spendable resources" even though it is a component of net position.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

#### A.11 - Capital assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

All capital assets with a unit cost greater than \$5,000 are capitalized at cost (or estimated historical cost, if actual cost is not available) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair value on the date received. Improvements to assets are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not. Infrastructure assets, consisting of certain improvements other than buildings (such as parking facilities, sidewalks, landscaping and lighting systems) have been capitalized on a prospective basis beginning in 2004. In 2007, the County retroactively capitalized its infrastructure assets as provided in GASB Statement No. 34.

All reported capital assets are depreciated with the exception of land costs. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Governmental <u>Activities</u>
25-50 years
3-15 years
25-50 years
25-50 years

#### Note A - Summary of significant accounting policies (continued)

#### A.12 - Compensated absences

The County reports compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences." The County has adopted a personnel policy which provides for annual sick and vacation leave.

#### Paid Time Off leave

Full-time and part-time employees earn paid time off leave for each full pay period they work, beginning their first full pay period. Paid time off cannot be used in advance of earning it and no paid time off may be taken until after the pay period in which it is accrued. If an employee has accrued but unused paid time off in excess of the maximum accrual at the end of each pay period, the balance above the maximum shall be forfeited at the end of that pay period. Full time employees accrue paid time off leave for each bi-weekly pay period on the following basis of continuous service:

Years of service	Years of service Bi-weekly accrual of hours	
Under 1 year	6.5 hours	169 hours
1 but less than 5	7.5 hours	288 hours
5 but less than 10	8.5 hours	300 hours
10 or more	9.5 hours	320 hours

Part-time employees accrue paid time off leave on a pro rata basis depending on the number of hours they actually worked during the pay period and their number of years of continuous service with the County.

#### Sick Leave Transition Reserve

Employees who had sick leave accrual balance as of July 7, 2008 had their balance rolled over into their own individual Sick Leave Transition Reserve which will be useable only for sick leave purposes after the paid time off conversion date.

Any employee with a Sick Leave Transition Reserve balance above four hundred hours may purchase eight hours of pay for thirty-two hours of accumulated Sick Leave Transition Reserve or convert thirty-two hours of accumulated Sick Leave Transition Reserve for eight hours of paid time off leave. Under no circumstances shall an employee be permitted to purchase or transfer accumulated Sick Leave Transition Reserve below the four hundred hour accrual amount.

#### Note A - Summary of significant accounting policies (continued)

Upon the retirement, resignation or dismissal of any employee with at least ten years of active, continuous employment with the County, the County will grant eight hours of pay for every thirty-two hours of all unused Sick Leave Transition Reserve.

Upon the resignation or dismissal of any employee with less than ten years of active, continuous employment with the County, the County will grant eight hours of pay for every thirty-two hours of unused Sick Leave Transition Reserve between the four hundred and seven hundred twenty hour accrual amounts.

Effective January 1, 2018, employees who have at least ten year of active, continuous employment and have accrued Sick Leave Transition Reserve may elect to request payout of unused Sick Leave Transition Reserve. The County will grant eight hours of pay for every thirty-two hours of all unused Sick Leave Transition Reserve.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "accrued compensated absences" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported. The amounts recorded as liabilities for all applicable compensated absences include salary-related payments associated with the payment of compensated absences, using the rates in effect at the balance sheet date.

#### A.13 - Accrued liabilities and long-term obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, the noncurrent portion of compensated absences and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. Bonds payable and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

#### Note A - Summary of significant accounting policies (continued)

#### A.14 - Net position

Net position represents the difference between assets and liabilities. Net investment in capital assets consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are liabilities imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The County applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

#### A.15 - Interfund transactions

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. In general, the effect of interfund activity has been eliminated from the government-wide financial statements.

#### A.16 - Extraordinary and special items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the board of county commissioners and that are either unusual in nature or infrequent in occurrence. The County had no items that qualify for reporting as special items.

#### A.17 - Fund balance

The Governmental Accounting Standards Board (GASB) has issued Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54). This Statement defines the different type of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories listed below.

• Nonspendable, such as fund balance associated with inventories, prepaid expenditures, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed or assigned),

#### Note A - Summary of significant accounting policies (continued)

- Restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation,
- Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Board of County Commissioners (the County's highest level of decision-making authority),
- Assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or
- *Unassigned* fund balance is the residual classification for the County's general fund and includes all spendable amounts not contained in the other classifications.

Committed fund balance is established by a formal passage of a resolution. This is typically done through the adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. Assigned fund balance is established by the Board of County Commissioners through adoption or amendment of the budget as intended for specific purpose (such as purchase of fixed assets, construction, debt service or for other purposes).

When both restricted and unrestricted resources are available in governmental funds, the County applies expenditures against restricted fund balance first, and followed by committed fund balance, assigned fund balance and unassigned fund balance.

#### Note B - Cash and investments

#### Cash and deposits

Colorado State statutes govern the County's deposits of cash. The Public Deposit Protection Acts (PDPA) for banks and savings and loans require state regulators to certify eligible depositories for public deposits. The PDPA require eligible depositories with public deposits in excess of federal insurance levels to create a single institution collateral pool of defined eligible assets. Eligible collateral includes obligations of the United States, obligations of the State of Colorado or Colorado local governments and obligations secured by first lien mortgages on real property located in the state. The pool is to be maintained by another institution or held in trust for all uninsured public deposits as a group and not held in any individual government's name. The fair value of the assets in the pool must be at least equal to 102% of the aggregate uninsured deposits.

<u>Custodial credit risk – deposits</u> – Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned to it. The County does not have a deposit policy for custodial credit risk. As of year-end, the County had total deposits of \$37,272,033, of which \$2,305,014 was insured and \$34,967,019 was collateralized with securities held by the pledging institution's trust department or agent in the County's name.

#### Note B - Cash and investments (continued)

#### **Investments**

<u>Authorized investments</u> - Investment policies are governed by Colorado State Statutes and the County's own investment policies and procedures. Investments of the County may include:

- Obligations of the United States Government such as treasury bills, notes and bonds
- Certain international agency securities
- General obligation and revenue bonds of United States local government entities
- Bankers acceptances of certain banks
- Commercial paper
- Local government investment pools
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts

During the year, the County invested in ColoTrust (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commission administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and repurchase agreements collateralized by certain obligations of U.S. government agencies. A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and As of December 31, 2023, the County had invested \$5,185,949 in withdrawals. COLOTRUST PLUS+, an SEC Rule 2a7-like investment pool. Investments are valued at the net asset value (NAV) of \$1.00. The investment pools are routinely monitored by the Colorado Division of Securities with regard to operations and investments.

At year-end, the County had the following investments:

	Investment maturities (in years)			(in years)
Investment type	Fair value	Less than 1	1-5	6-10
Investment in ColoTrust	<b>\$</b> 5,185,949 <b>\$</b>	5,185,949	\$	\$

## Note B - Cash and investments (continued)

<u>Credit risk</u> – State law limits investments in commercial paper, corporate bonds, and mutual bond funds to the highest rating from at least one nationally recognized rating agency at the time of purchase. The County has no investment policy that would further limit its investment choices. At year-end, the County's investment in Colotrust was rated AAAm by Standard and Poor's.

The following table provides a reconciliation of cash and cash investments on the statement of net position:

Cash Certificates of deposit ColoTrust	\$ 23,630,161 10,940,836 5,185,949
Total cash and cash investments	<u>\$ 39,756,946</u>
Statement of net position Cash and cash investments	\$ 34,515,045
Statement of fiduciary net position Cash and cash investments	5,241,901
Total	\$ 39,756,946

#### Note C - Receivables

Receivables at year-end consist of the following:

	G —	overnmental Activities
Property taxes	\$	6,725,087
Accounts		2,814,042
Grants		1,643,693
Due from other entities		431,597
Total	\$	11,614,419

Property taxes are levied on December 15<sup>th</sup> and attach as a lien on property the following January 1<sup>st</sup>. They are payable in full by April 30<sup>th</sup> or are due in two equal installments on February 28<sup>th</sup> and June 15<sup>th</sup>. Logan County bills and collects property taxes for all taxing entities within the County. The tax receipts collected by the county are remitted to the County in the subsequent month.

# Note D - Capital assets

Capital asset activity for the year was as follows:

	Beginning Balance	Additions/ Adjustments	Deletions/ Transfers	Ending Balance
Governmental activities				
Capital assets, not being				
depreciated:				
Land	\$ 1,133,152	\$ -	\$ -	\$ 1,133,152
Construction in progress	<u>4,042,934</u>	7,022,900	<u>(4,656,002)</u>	6,409,832
Total capital assets, not				
being depreciated:	5,176,086	7,022,900	(4,656,002)	7,542,984
Capital assets, being depreciated:				
Buildings	31,392,256	155,000	(58,595)	31,488,661
Equipment	20,580,625	608,029	115,313	21,303,967
Leased equipment	2,126,335	25,137	-	2,151,472
Improvements	2,374,923	491,285	4,319,222	7,185,430
Infrastructure	31,350,736	2,383,998	-	33,734,734
Total capital assets, being				
depreciated	87,824,875	3,663,449	4,375,940	95,864,264
Total capital assets	93,000,961	10,686,349	(280,062)	103,407,248
Less accumulated depreciation for	··			
Buildings	(12,365,328)	(613,116)	-	(12,978,444)
Equipment	(15,446,635)	(960, 175)	76,916	(16,329,894)
Lease equipment	(25,314)	(308,550)	-	(333,864)
Improvements	(1,372,194)	(108,202)	-	(1,480,396)
Infrastructure	_(12,647,315)	(619,191)	_	_(13,266,506)
Total accumulated				
depreciation	_(41,856,786)	(2,609,234)	76,916	(44,389,104)
Governmental activities				
capital assets, net	<u>\$ 51,144,175</u>	<u>\$ 8,077,115</u>	<u>\$(203,146)</u>	<u>\$_59,018,144</u>

#### Note D - Capital assets (Continued)

Depreciation expense was charged to programs of the primary government as follows:

#### Governmental activities

General government	\$	243,150
Public safety		666,205
Health and welfare		73,560
Auxiliary services		71,165
Culture and recreation		56,423
Public works		1,498,731
Total governmental activities	<u>\$</u>	2,609,234

#### Note E - Long-term debt

The following is a summary of the changes in long-term debt for the year:

	Beginning Balances	Additions	Reductions	Ending Balances	Due within one year
Governmental activities	-				
Landfill closure and postclosure Leases payable	\$ 1,834,588 2,101,021	\$ 100,879 25,137	\$ - (308,151)	\$ 1,935,467 1,818,007	\$ - 308,550
Compensated absences	864,431	46,255*		910,686	
Total	\$ 4,800,040	<u>\$ 172,271</u>	\$ (308,151)	\$ 4,664,160	\$ 308,550

<sup>\*</sup>The change in the compensated absences liability is presented as a net change.

The lease payable attributable to the governmental activities will be liquidated primarily by the General and Road and Bridge Funds.

#### Leases payable

\$2,157,472 has been recorded as intangible right to use leases in the Governmental Activities capital assets. Due to the implementation of GASB Statement No. 87, the leases for seven motor graders (\$2,126,335) and one copy machine (\$25,137) met the criteria of a lease; thus, requiring them to be recorded by the County. The motor graders and copy machine will be amortized over the lease terms of seven years and five and one quarter years, respectively, since they are shorter than the useful life and the County is not taking ownership of the equipment. There are no residual value guarantees in the lease provisions. The leases will end in 2029 and 2028, respectively. A summary of the principal amounts for the remaining leases are as follows:

#### Note E - Long-term debt (Continued)

Year Ending December 31,	Principal
2024	\$ 308,550
2025	308,550
2026	308,550
2027	308,550
2028	305,358
2029	278,449
Total	\$ 1,818,007

#### Landfill closure and postclosure care costs

The Governmental Accounting Standards Board has adopted Statement No. 18, Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs, which provides guidance for the accounting and financial reporting of these closure and postclosure care costs. State and federal laws and regulations require the County to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. The \$1,935,467 reported as landfill closure and postclosure care liability at year-end represents the cumulative amount reported to date based on 73 percent usage of the estimated capacity of the landfill. The County will recognize the remaining estimated cost of closure and postclosure care of \$705,379 as the remaining estimated capacity is The estimated total current cost of the landfill closure and postclosure cost (\$2,640,846) is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor and maintain the landfill were acquired at year-end. Closure and postclosure costs are estimated to be \$2,062,183 and \$578,663, respectively. The County expects to close the cell in the year 2035. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. The County is required by state and federal laws and regulations to demonstrate financial assurance. The County is in compliance with these requirements through the local government financial test.

## Note F - Risk management

The County is a member of the Colorado Counties, Inc. insurance pools as described below:

#### Colorado Workers' Compensation Pool

The County is exposed to various risks of loss related to injuries of employees while on the job. The County joined together with other counties in the State of Colorado to form the County Workers' Compensation Pool (CWCP), a public entity risk pool currently operating

#### Note F - Risk management (Continued)

as a common risk management and insurance program for its workers' compensation insurance coverage. The County's financial contribution for the year was \$193,001. The intergovernmental agreement of formation of the CWCP provides that the pool will be financially self-sustaining through member contributions and additional assessments, if necessary, and the pool will purchase excess insurance through commercial companies for members' claims in excess of a specified self-insured retention, which is determined each policy year. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

#### Colorado Counties Casualty and Property Pool

The County is exposed to various risks of loss related to property and casualty losses. The County joined together with other counties in the State of Colorado to form the Colorado Counties Casualty and Property Pool (CAPP), a public entity risk pool currently operating as a common risk management and insurance program for member counties. The County's financial contribution for the year was \$1,026,741. The intergovernmental agreement of formation of the CAPP provides that the pool will be financially self-sustaining through member contributions and additional assessments, if necessary, and the pool will purchase excess insurance through commercial companies for members' claims in excess of a specified self-insured retention, which is determined each policy year.

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; claims relating to professional liability; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. There has been no significant reduction in insurance coverage from the prior year in any of the major categories of risk.

#### Note G - Pension plans

The County contributes to the Colorado County Officials and Employees Retirement Plan (the Plan), a defined contribution plan administered by the Colorado County Officials and Employees Retirement Association (CCOERA).

Benefit terms, including contribution requirements, for the Plan are established and may be amended by the Board of County Commissioners. The County's contribution is a minimum of 4% of covered salary, but may be increased beyond this amount. All eligible employees are required to contribute an amount equal to the contribution by the County. For the year employee contributions totaled \$403,771, and the County recognized pension expense of \$403,771.

#### Note G - Pension plans (Continued)

Employees are immediately vested in their own contributions, but become vested in County contributions and earnings on those contributions according to a sliding scale until six years of employment, at which time they are fully vested.

#### Note H - Deferred compensation plans

The County has a deferred compensation plan created in accordance with the Internal Revenue Code Section 457. The plan is administered by an independent plan administrator through an administrative service agreement. The plan is available to all County employees working a minimum of twenty hours per week. Employees defer a portion of their salary until future years. Deferred compensation is not available to employees until termination, retirement, death or financial hardship.

Amendments to the laws governing Section 457 deferred compensation plans substantially became effective January 1, 1997. The County approved plan amendments such that plan assets are held in trust for the exclusive benefit of the plan participants and their beneficiaries. The assets will not be diverted to any other purpose.

#### Note I - Joint venture

The County participates in the Colorado Counties, Inc. Insurance Pool (the Pool). This joint venture does not meet the criteria for inclusion within the reporting entity because the Pool:

- is financially independent and responsible for its own financing deficits and entitled to its own surpluses,
- has a separate governing board from that of the County,
- has a separate management which is responsible for day to day operations and is accountable to the separate governing board,
- governing board and management have the ability to significantly influence operations
  by approving budgetary requests and adjustments, signing contracts, hiring personnel,
  exercising control over facilities and determining the outcome or disposition of matters
  affecting the recipients of services provided, and
- has absolute authority over all funds and fiscal responsibility including budgetary responsibility and reporting to state agencies and controls fiscal management.

The County has one member on the board. This board has final authority for all budgeting and financing of the joint venture.

Separate financial statements of the Colorado Counties, Inc. Insurance Pool are available by contacting their administrative office in Denver, Colorado.

#### Note J - Commitments and contingencies

#### Federal and state funding

The County receives revenues from various federal and state grant programs which are subject to final review and approval by the grantor agencies. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

#### TABOR Amendment

In November 1992, Colorado voters passed an amendment, commonly known as the Taxpayer's Bill of Rights (TABOR), to the State Constitution (Article X, Section 20) which limits the revenue raising and spending abilities of state and local governments. The limits on property taxes, revenue, and "fiscal year spending" include allowable annual increases tied to inflation and local growth. Fiscal year spending as defined by the amendment excludes spending from certain revenue and financing sources such as federal funds, gifts, property sales, fund transfers, damage awards, and fund reserves (balances). amendment requires voter approval for any increase in mill levy or tax rates, new taxes, or creation of multi-year debt. Revenue earned in excess of the "spending limit" must be refunded or approved to be retained by the County under specified voting requirements by the entire electorate. In 1997, the voters of the County approved a ballot initiative permitting the County to retain, appropriate, and utilize, by retention for reserve, carryover fund balance, or expenditure, the full proceeds and revenues received from every source whatsoever, without limitation, in this fiscal year and all subsequent fiscal years notwithstanding any limitation of Article X, Section 20 of the Colorado Constitution. TABOR is complex and subject to judicial interpretation.

The County believes it is in compliance with the requirements of TABOR. However, the County has made certain interpretations of TABOR's language in order to determine its compliance. The County has restricted funds in the General Fund and the Pest Control Fund in the amount of \$865,400 in satisfaction of this requirement.

#### Contingent liabilities

The County is a defendant in various threatened or pending legal action for property damages and other miscellaneous claims. The ultimate liability that might result from the financial resolution of these matters is not presently determinable. Adequate insurance is carried to cover actual damages in most cases. Management and legal counsel are of the opinion that the final outcome of the claims will not have a material adverse effect on the County's financial statements.

#### Local Government Budget Law

Expenditures in the Ambulance Service Fund exceeded appropriations by \$39,234 and may be in violation of Colorado Local Government Budget Laws.

Note K - Noncash program activity

## **Budgetary Comparison Schedules - General Fund**

The General Fund accounts for all transactions of the County not required to be accounted for in other funds. This fund represents an accounting of the County's ordinary operations financed primarily from tax dollars and intergovernmental aid. It is the most significant fund in relation to the County's overall operations. The schedules of revenues and expenditures are included to provide a greater level of detail to the reader of the financial statements.

#### Budgetary Comparison Schedules - Road and Bridge Fund

The Road and Bridge Fund records costs related to County road and bridge construction and maintenance. By State law, Colorado counties are required to maintain a Road and Bridge Fund and a portion of road and bridge taxes is allocated to cities and towns for use in their road and street activities.

#### Budgetary Comparison Schedules - Human Services Fund

The Human Services Fund administers human service programs under state and federal regulations. Programs include, but are not limited to, Medicaid, Food Stamps, foster care programs, senior service programs, job training services, and Temporary Assistance to Needy Families (TANF). Colorado counties are required by state law to maintain a Human Services Fund.

## LOGAN COUNTY, COLORADO Notes to Schedule of Expenditures of Federal Awards For the Year Ended December 31, 2023

### Note A - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Logan County, Colorado under programs of the federal government for the year ended December 31, 2023. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Logan County, Colorado, it is not intended to and does not present the financial position, changes in net position, or cash flows of Logan County, Colorado.

### Note B - Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual or full accrual basis of accounting, as appropriate. Therefore, some amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of, the financial statement(s) of the federal program. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

### Note C - Indirect Cost Rate

Logan County, Colorado has elected not to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

### Note D - Subrecipients

Logan County, Colorado did not pass through any federal grants to subrecipients.

# Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of County Commissioners Logan County Sterling, Colorado

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Logan County, Colorado (the County), as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated July 24, 2024.

### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not been identified.

### Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## Independent Auditors' Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance

To the Board of County Commissioners Logan County Sterling, Colorado

### Report on Compliance of Each Major Federal Program

### Opinion on Each Major Federal Program

We have audited Logan County, Colorado's (the County) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2023. The County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

### Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major program. Our audit does not provide a legal determination of the County's compliance with the compliance requirements referred to above.

### Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the County's federal programs.

### Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements above occurred, whether due to fraud or error, and express an opinion on the County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgement made by a reasonable user of the report on compliance about the County's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the County's internal control over compliance relevant to
  the audit in order to design audit procedures that are appropriate in the circumstances
  and to test and report on internal control over compliance in accordance with the
  Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness
  of the County's internal control over compliance. Accordingly, no such opinion is
  expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

#### Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion in expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
